SUMMARY

Performance-driven Frontend Developer and Computer Science graduate with a focus on building scalable, user-centric web applications. Expert in **React.js** and **Modern JavaScript (ES6+)**, with a proven track record in developing responsive e-commerce platforms and fintech solutions. Certified by **ITI** and **Packt** in advanced React and UI/UX design, I bridge the gap between sophisticated design and technical implementation to deliver seamless digital experiences.

EXPERIENCE

Frontend Developer Intern | Digilians

Mar 2026 – Present | Cairo, Egypt

- Developed and optimized interactive user interfaces using **React.js** and **Modern CSS frameworks**.
- Collaborated with the design team to transform **Figma** prototypes into high-quality, reusable React components.
- Focused on enhancing website performance and ensuring full responsiveness across all device types.
- Utilized **Git** for version control and participated in code reviews to maintain high coding standards.

Web Development Trainee | ITI (Information Technology Institute)

Jul 2024 – Aug 2024 | Cairo, Egypt

- Developed structured, accessible, and SEO-friendly layouts using **HTML5** and **CSS3**.
 - Implemented complex logic and interactive features using **Modern JavaScript (ES6+)**.
 - Utilized **Tailwind CSS** and **Bootstrap** to ensure seamless cross-browser and mobile compatibility.
-

PROJECTS

CakeSite – E-commerce Platform

- Developed a full-featured web application using **React.js** with multi-language support (**react-i18next**).
- Managed application state for shopping carts and user authentication using **Context API**.
- Focused on high-performance UI and responsive design tailored for various screen sizes.

SiteFashion

- Built a responsive fashion e-commerce user interface using **React.js**, **Tailwind CSS**, and modern JavaScript.

Sportify – Real-time Sports Tracker

- Developed a dynamic sports web application using **Vanilla JavaScript** and **Modern CSS** to display live match data.
 - Integrated a **Restful API** to fetch and render real-time scores, standings, and player statistics.
 - Implemented asynchronous data handling using **Fetch API** and **Async/Await** to ensure smooth data updates without page reloads.
 - Designed a fully responsive UI with a mobile-first approach, ensuring optimal viewing on all devices.
-
